

2010 Boathouse Updates

Visit our web site <http://www.kodiakmwr.com/boat.shtml>

May 15th will be the official season opener for the boat house. We hope to see you there.

Boat rentals remain the same at \$15 an hour, \$45 minimum, \$100 maximum. Rent our 23' five times and get your sixth rental free all season long.

The requirements for acquiring a boat card; All current card holders will need to take the Boat House written test in order to receive this year's card. All new boaters will need to take a USCG Auxiliary approved Safe Boating Course or equivalent. You will also be required to review the MWR boating requirements and pass the test. After taking the Auxiliary approved course, come to the boathouse with your completion certificate and a receipt of payment and we'll take the cost of your course off your first boat rental.

http://www.uscgboating.org/safety/boating_safety_courses.aspx

The Auxiliary Safe Boating Class will be offered this spring for those interested in an actual class.

We have six Scamp campers, the 16' and 13' models. Check them out at www.scamptrailers.com. Everyone will need to get a Camper Rental card and pass a MWR trailering test prior to renting the camper trailers and ATV trailers.

Remember that we also have three "A" frame truck campers, along with three 17' Boston Whaler utility boats for crabbing, two ATV trailers, three 12' inflatable rafts, portable outboard engines and Honda generators.

April will be an interesting month. We will be accepting solicitations for boat slip rentals which will close on May 10th. Names will be drawn at random for the slips. NO charge for our boat dock slips! They will be allocated out to the MWR eligible patron in a lottery style drawing.

We are looking to gain some fishing resources, for those people who may have special needs or may want to save some money. If you are willing to cost split or take people out with you on a day trip, please leave your contact information in the resource book at the boat house. We have many older retirees / patrons who would like to go fishing but are reluctant to operate the boat on their own.

Boat House Freezer policy has changed. Storage will be limited to 30 days for all persons. This includes persons stationed on island as well as transient persons. All other labeling requirements have remained the same.

We are busy getting ready for this year's season. Call or stop by if you have questions or just want to take a look around!
